

ALACC VOICE NEWSLETTER # 2

OFF TO A GREAT START!

Dr Janet says: "We can only move forward with better communication due to our working remotely more often. Lack of communication affects all parts of running the college; It affects student learning experiences and impacts the business. Our students are our prime responsibilities, so we must show team spirit and work together as one ALACC staff-family."

ALACC celebrates our graduates. (In photo) Three thrilled students with big smiles, after receiving their certificates in Diploma of Nursing – representing Group 16. As an RTO we endeavor to keep our students happy, by not just providing them with education and experiences, but also to set them up for success in their choice of career.

Thank you to all our dedicated students & helpful representatives!

ENGLISH LANGUAGE SUPPORT

New international students and their agent visited ALACC to for their orientation. They told us that our previous student, Erin, has greatly improved her language skills, and even completed her job interview successfully. AN EXCELLENT REVIEW

We would like to share a lovely review from Our Cert IV Disability Support student:

“I would like to thank to Ms SHRIJANA a lot for guiding and encouraged me to complete my course. I was about to give up due to my anxiety and chronic pain. But she motivated me and finally I have finished my course, and I am so happy about that. Thanks heaps to her. I appreciated for her encouragement.”
— Thomas

That's great feedback! It is truly encouraging.
